SL041906

Chelsea joined the Hopscotch Children's Therapy Centre team bringing with her extensive international and UK experience as a Speech and Language Therapist. With a background spanning paediatric clinic, SEN school, and neuro-rehabilitation settings, she offers a broad and specialist clinical skill set to children with a wide range of communication, language, and feeding needs.

#### About Chelsea:

Chelsea holds a Bachelor of Speech, Language and Hearing Therapy from Stellenbosch University and is registered with the HCPC and RCSLT. She has built her career across South Africa and the UK, developing deep expertise in paediatric speech and language therapy within specialist and multidisciplinary settings. Her experience spans complex communication needs, specialist dysphagia and feeding support, and highly specialist neuro-rehabilitation work with children with Acquired Brain Injury.

Her experience includes:

- Assessment and intervention for speech, language, communication, and literacy difficulties across paediatric populations
- Specialist dysphagia and feeding support, including mealtime observations, risk management, and implementation of safe feeding strategies
- EHCP assessments, reports, and annual reviews within SEN school and multidisciplinary clinic settings
- Collaborative working within MDTs alongside Occupational Therapists, SENCOs, LSAs, and education staff
- Managing independent caseloads within specialist SEN environments
- Medico-legal services and neuro-rehabilitation support for children with Acquired Brain Injury (ABI/TBI)

Chelsea's international experience, combined with her specialist paediatric and dysphagia skills, enables her to support children with complex and overlapping needs. She is known for her warm, approachable manner and her commitment to empowering children and families through meaningful, functional therapy goals.
